U	DIED OR LOST IN SHELTER/CARE	0	2	2
V	TOTAL OUTCOMES [T + U] <i>Excludes Owner/Guardian Requested Euthanasia (Unhealthy & Untreatable Only)</i>	0	174	174
W	ENDING SHELTER COUNT (date)	0	0	0

In a perfect world, the Ending Count is equal to the Beginning Count (A) plus Total Intake (F) minus all Outcomes (R+V). -----> 0 31 31

If your reported Ending Count does not match these numbers, please go back through your data and be sure you didn't miss something (i.e., animals in foster, adoptions, transfers, etc.). If all animals have been accounted for and the reported Ending Count is different, please indicate in the comment section.

CO End count is different because we took in more animals than we adopted out in 2015

Note 1: Unhealthy/Untreatable designation explanation – 69 of the 70 cats categorized as U/U were kittens under the age of 8 weeks, the other was an adult cat diagnosed as terminally ill upon intake by our veterinarian.

Note 2: Incoming transfers from within Target Community were from the Arizona Humane Society, Phoenix Arizona

Note 3: Incoming transfers from outside Target Community were from Pima County Animal Care and Control, 4000 North Silver Bell Road, Tucson, Arizona and Pinal County animal Care and Control, 1150 Eleven Mile Corner Road, Casa Grande, Arizona

I agree that in completing this form, we have used the Maddie's Fund definitions of “Healthy,” “Treatable - Manageable,” “Treatable - Rehabilitatable,” and “Unhealthy & Untreatable” as set forth in the attached document titled, “Maddie’s Fund® Categorizations/Definitions of Shelter Animals.”

Sig Kim Kamins, Vice President, Fearless Kitty Rescue DATE: February 8, 2016
